SUMMARY

Computer Science student with hands-on experience building data tools in Python and SQL. Shipped two full-stack projects used by 300+ students. Seeking a data analyst internship.

EDUCATION

B.Tech in Computer Science and Design, K.K. Wagh Institute of Engineering, Nashik | 2023 - 2027

CGPA: 9.01 / 10

EXPERIENCE

Data Analyst Intern, BrightLeaf Analytics | Jun 2025 - Aug 2025

- Automated weekly sales reports with Python and pandas, cutting manual work by 12 hours per week.
- Built a Power BI dashboard tracking 8 KPIs for a team of 25, adopted by 3 departments.
- Cleaned and validated 200,000+ records using SQL, improving data accuracy from 91% to 99%.
- Presented findings to senior managers, leading to a 15% reduction in stock-outs.

PROJECTS

Kleenly - Automatic CSV Cleaner | Python, FastAPI, scikit-learn

- Developed a data-cleaning web app that detects missing values, duplicates and outliers in uploaded files.
- Implemented Isolation Forest and KNN imputation, with 36 automated tests passing.
- Designed a two-page interface used by 40 classmates during a department demo.

Expense Tracker App | Flutter, Firebase

- Launched an Android app with 150 active users and a 4.6 star rating.
- Optimised database queries, reducing screen load time by 35%.

SKILLS

Languages: Python, SQL, Java, JavaScript, HTML, CSS

Data and AI: pandas, NumPy, scikit-learn, Machine Learning, Power BI, Excel, Data Analysis

Tools: Git, GitHub, Docker, Flutter, Firebase, FastAPI, MySQL, REST API

ACHIEVEMENTS

- Won first place in a college hackathon among 60 teams.
- Led a team of 6 for the department technical fest.
